5. Website Presentation – Annie Komarisky proposed to the town board, a four-month trial as webmaster of the town’s website. She would manage the content and organization of the postings as a 1099 contractor at \$25.00 per hour. Content postings would be pre-approved by either the town clerk, town supervisor or town attorney.
6. Officer Reports
 - a. Assessor – In preparation of the town’s revaluation it was explained by Assessor Garner *that she* will make assessments, to provide the basis for fair distribution of taxes among the town’s property owners. The last revaluation was in 2016. When a reval is made, it is to restore the "Equalization Rate" back to 100%, which is equal to the "Full Market Value" of the real property. Even though assessments may go up in a reval, it does not necessarily mean the property owner will pay more in property taxes. The amount of property tax paid is based on the "Assessed Value" of the property and the tax rates of the local town, county, and school budgets. As the net worth of the town increases during a reval, the amount needed per \$1,000.00 of "Assessed Value" for the Municipal budgets will decrease. A general informational meeting at the town office will be scheduled for Thursday, February 29, 2024, at 5:30pm. Announcements will be posted in the newspaper, on the town’s website and at the town office. Residents will be able to make an appointment in person or on the phone to discuss in more detail with the assessor. She will print out comparisons of equivalent property assessments for review. The Preliminary Assessment Roll will be available in March, 2024. The Tentative Assessment Roll on May 1, 2024 and July 1st for the Final Roll. Preliminary assessments will be posted on the town’s website.
 - b. CEO – Report attached to end of meeting minutes.

- c. Clerk – January Disbursements to the Town Supervisor were \$1,511.00. Deadline to submit news articles for the town’s Spring 2024 Newsletter is March 25, 2024. As of this date 79% of the county/town tax bills have been processed.
 - d. Highway Superintendent – Jason Botsford had a 4H meeting at the Town Office with about 30 youth and adults. While the parents and leaders met, the Highway Superintendent took those interested on a tour to talk about the highway equipment and what it does. A couple of culvert pipes were plugged due to the up and down temperatures.. Most problems have been on county roads. The highway crew have been trimming trees over hanging in the roads to try to prevent them from coming down in the road during a storm. Work has started on the old Healy Rd, now called Skillet Rd.. Brush and debris have been removed along with some trees. The surveyor needs to put in the property corner markers so the road can be made wider in areas and then graded.
